## ALMA MATER

Words by

Rose Mills Powers

Music by

Homer Stanley Pope

Set like a gem amid the waters blue,  
Where palms and pines their fragrant incense brew,  
O Alma Mater, as the swift year runs  
Sing we thy praise, thy daughters and thy sons.

Sons who uphold thy fair unsullied fame,  
Daughters who love thine ancient honored name,  
True to thy colors blazoned far on high—  
Gold of the sun and blue of bending sky.

Far from thy walls, wherever we may go,  
Still with a heart where loyal memories glow,  
Still with a song for Rollins ringing clear,  
Guide of our youth, O Alma Mater, dear.

Dean Howden presented the revised Code of Student Conduct, copies of which have been distributed to the Faculty, and pointed out the changes from the form presented at the May 9 meeting. She felt that the revised code was workable.

Bill Blackburn, representing the students, was invited to come in to the meeting. He stated that the student government is satisfied with the Code as revised. Dr. Pearce asked if a student has any voice as to where a case should be presented. Mr. Blackburn replied that a student can refer a question to the Chairman of the Lower Court or to either of the Student Deans, who will take it up with the Procedural Committee. Mr. Blackburn was thanked and excused from the meeting.

The following changes in the revised code as distributed were approved:

Page 2, D. 1. Insert the words "subsequently by" so that

the sentence reads: The decisions of this court are subject to review and reversal by the Faculty or subsequently by the Trustees of the College.

Miss Leslie White, representing the Panhellenic Council was invited to express the Council's point of view. She stated that the Council was about evenly divided. She suggested consideration of a plan for rush during the first two weekends of the fall term, but not during orientation week. Miss White was thanked and excused from the meeting.

Following some further discussion, Mr. Griswold's motion was carried.

College

THE ROLLINS CODE OF STUDENT CONDUCT

Members of the Rollins Student Association are expected to uphold the following policies, rules, and regulations.

I. GENERAL POLICIES

- A. Rollins College is dedicated to the kind of liberal arts education which fosters the personal and social development of the individual as much as his intellectual achievement. It is therefore a basic aim of the college to provide an environment which will help students to develop into mature, responsible adults. All student conduct should adhere to the principles of safety, thoughtfulness, consideration of others, suitability, and decorum. This Code of Student Conduct and the Student Government both make vital contributions to forming such an environment.
- B. The College expects all students to obey the laws of the local community, the state and the nation, as well as the rules in this Code. In case a student violates a community, state, or national law, the College will not request special consideration for him because of his status as a student. Violators of this Code are liable to disciplinary action by the Student Courts.
- C. A student cannot be tried by a Student Court for violating a community, state, or national law unless the law is included in this Code as a college rule. If he is charged and convicted by a civil court, however, he may be subsequently tried by a Student Court for any damage he may have done to the reputation of the College.
- D. No officer of any recognized campus group may use his (or her) official position in any way to aid or encourage the members of his (or her) group to violate any local community, state, or national law.

II. ADMINISTRATION OF THE CODE

- A. Penalties for violating the Rollins Code of Student Conduct will be based upon the nature of the offence, the number of previous offences, the seniority of the offender and on whether the offence involves a dereliction of duty by an officer of a recognized campus group, and will be referred to either the respective house council, the Lower Court, or the Upper Court.
- B. The Procedural Committee shall consist of the Dean of the College, the Chairman of the Lower Court, and the student dean appropriate to the case. Its duties shall be:
  - (1) To determine how cases not covered by the Rollins Code of Student Conduct shall be dealt with, and if, in the judgment of the committee, an addition or amendment to the Rollins Code of Student Conduct is required, it shall make a recommendation to this effect to the Rules Committee. However, any new rules that are introduced by the Rules Committee shall not apply retroactively to offences committed before the introduction of new rules
  - (2) To determine referral of cases which the Student Deans feel may warrant the protection of privacy of students.

Senior women who are in their fourth year and in good academic (6.0 cumulative grade point average) and social standing are granted the privilege of using the residence hall keys for special occasions. This would make it possible for them to come in after the buildings are closed on any night. To obtain a key, a senior must sign out before 8:30 p. m. on the particular night she wishes to use the key and give

the requested information concerning her destination and anticipated hour of return. A key may be signed out after 8:30 p. m. at the discretion of the Resident Head. Each girl is responsible for the key she checks out, and if she loses the key, it may be necessary for the House Council to revoke her key privilege. The House Council and the Chairman of the Women's Rules Committee reserve the right to investigate any misuse of this special privilege and to refer any infraction to the Chairman of Lower Court, if necessary. In either case, if they are arrested and convicted by a civil court, they will also be answerable to the college for any damage they may have done to the reputation of the college. In the case of men, freshmen first-time offenders will be bailed out of jail, if this is necessary, by the College, and the bail will be recovered from their parents. All other men will be required to make their own arrangements. In the case of women, freshmen and sophomores will be bailed out by the College, if this is necessary and the bail will be recovered from their parents; juniors and seniors will be required to make their own bail arrangements.

MEMORANDUM

ROLLINS COLLEGE

From: Special Committee on Faculty Lounge

Date: May 26, 1966

To: Faculty

Copies to: President McKean, Vice President Tiedtke, Dean Burdell, Dean Hill

---

Subject Proposed Plan for Faculty Lounge

1. The faculty-adopted motion which established this committee provides for a report back to the faculty "after consultation with the Faculty-Administration Committee, on the necessity, practicability, and character of such a facility if recommended for establishment."

2. A proposed plan for a faculty lounge is provided herewith for consideration by the Faculty. Professors Bonnell, Spencer Lane, MacPherson, Nelson and O'Brien are the members of the special committee which prepared the plan.

3. At the May 30 faculty meeting the committee proposes to move that the faculty accept the committee report and that the faculty recommend that the Administration consider incorporation of the requirement for a faculty lounge in current planning for the academic year 1966 - 1967.

## FACULTY LOUNGE PROPOSAL

### GENERAL PLAN

President Hugh F. McKean, in his 1966 Report to the Trustees, listed a Faculty Club as the fourth item in a list of seven urgently needed buildings for the Rollins campus. He stated that "This facility should include guest rooms for visitors to the College, private dining rooms, and meeting rooms for the faculty."

The Committee concurs that the need should be included in the re-study and redesign of the campus. In the interim period, however, the Committee considers that early action should be taken to provide from existing facilities of the College that portion of a faculty club suggested by the phrase "meeting rooms for the faculty."

The necessity for such a facility is documented by the recent analysis of faculty needs by the Special Committee on Curriculum. A faculty lounge was listed as the primary item under the subheading of Physical Facilities, under the heading of Professional Needs in response to the question, "What do you feel is needed to hold you at Rollins?" In their conclusions the Committee reported that the faculty desired "more opportunity to exchange ideas and discuss other matters through a faculty lounge." This need becomes even more urgent with the adoption of the new curriculum with emphasis on foundation courses and integrating courses.

This plan for an interim faculty lounge, pending future plans for a faculty club as envisioned by President McKean, is sub-divided into sections on Location, Facilities, Membership, and Financial Aspects. The practicability of the plan depends on the priority assigned by the College to providing adequate facilities in a suitable location with the necessary financial support. In view of the many imminent changes in location of

College activities consequent on the current building program, the Committee recommends that the Administration incorporate the requirement for a faculty lounge in current planning for the coming academic year.

#### LOCATION

The Committee has discussed the location of the interim facilities at some length and is impelled to the conclusion that a proper location is vital to the success of a faculty lounge. We conclude that in order to warrant the use of existing College space for this purpose there must be a high utilization rate by the faculty. It is considered that this high utilization rate can only be achieved if the lounge is located in the "core area" of the campus. For present purposes it seems to the Committee that the core area centers on the existing Student Union Building which houses the Post Office and is adjacent to the Book Store. The core area might then be roughly defined as including the following buildings: (a) Alumni House, (b) Carnegie Hall, (c) Woolson English House, (d) Dyer Memorial, (e) Shell Museum, and (f) Sullivan House.

The Committee does not suggest a specific site beyond location in this core area of the campus. It is the view of the Committee that it is the responsibility of the College to analyze space occupancy on a functional basis and allocate space accordingly. It appears to the Committee that some of the activities now housed in the core area buildings do not have a functional need for such a central location on the campus and could be relocated to the periphery if otherwise appropriate space was available. Even were it desirable to house all College activities in the core area this is manifestly impossible and priorities must be established on at least two bases, the priority of the function and the priority of need for a central location to effec-

tively perform the function. The Committee feels that a faculty lounge should rank relatively high in both respects.

#### FACILITIES

The optimum facilities which could be expected on an interim basis would include two large rooms with kitchenette and lavatory facilities available. The Committee considers it essential that one room always be available during office hours for casual conversational use by the faculty; and that the other room would be desirable for meeting purposes.

Minimum facilities for a viable operation would include one large room with a screened coffee bar and convenient lavatory.

The Committee considers that minimum facilities in the core area of the campus are more vital than optimum facilities outside the core area.

Whatever the nature of the facilities in terms of space the Committee believes that atmosphere is all-important. The Lounge should be functional in terms of comfort and ease but should also reflect the College philosophy that an attractive environment makes its contribution to a liberal arts program. The furnishings, decor, and art should provide an environment into which a faculty member would be proud to introduce a guest.

#### MEMBERSHIP

The Committee believes that there will be specific cases which will have to be resolved by a Membership Committee (or other controlling group with this function) but that the following broad rules should apply.

1. All faculty members as defined in the faculty by-laws shall be members automatically.

2. All members of "The Administration," as listed in the annual catalogue, shall be members automatically.
3. Members of "The Office Staffs," as listed in the annual catalogue, may be accorded the privileges of membership upon application and approval by the Membership Committee, or by invitation.
4. Officers and Trustees of the College shall be honorary members automatically
5. Other honorary and guest memberships must be approved by the Membership Committee.

#### FINANCIAL ASPECTS

After reviewing the financial aspects of faculty club operation as revealed in a survey of some twenty other colleges, the Committee is of the opinion that the only feasible plan requires that the College itself provide, furnish, and maintain the facility. The only way to ensure full participation by the faculty is to eliminate any financial obstacles to use. The only exception to this would be an arrangement by the members to pay for beverages or other consumable items. Various arrangements are possible ranging from monthly dues, by those who wish to participate in this aspect of the operation, to individual payment for each item as used. The nature of this arrangement would probably be affected by the specific type of space made available and can be left for later determination.

The Committee considers that College financial support may have some justification as a "fringe benefit" supplement but, more importantly, is fully justified as supporting a primary professional need to meet a specific educational objective.
